Information Regarding Coronavirus

Thank you for your interest in attending the Nephro Update Europe 2020 in The Hague. At this point in time, this event will be taking place as planned.

The security and health of our participants are our highest priority. As you know, the Coronavirus is spreading to most countries. Even though at this moment the effects of this situation will not affect our event in June, we are working on taking the following measures to ensure the safety of our delegates:

1) Placing disinfectant stations in the congress location
2) Increasing the daily cleaning and disinfection cycle of the sanitary and toilette areas.

Please follow the known codes of conduct, in order to avoid the risk of infection from others, in the same way you would with other viral infections.

Current information and rolling updates from the World Health Organization can be found at: https://www.who.int/emergencies/diseases/novel-coronavirus-2019/events-as-they-happen

We can assure you that we are taking this situation seriously and are assessing it on a daily basis. We will follow the guidelines of the authorities if the risk assessment changes. (Effective: 03.03.2020)
